BOARD OF EDUCATION—NOTICE

PARTIES DESIROUS OF OBTAINING the necessary Certificates of Qualification for appointments as Teachers in this Province under the "Public School Act, 1872," are notified that the Board are now prepared, at the Education office, Government street, to examine them and receive their testimonials.
On or about the second Tuesday in July next, all then existing vacant teacherships in schools taught under temporary arrangement will, as far as may be practicable, be supplied with teachers selected by the Board from those who shall have become duly qualified by certificate obtained as above.
Applicants for teacherships holding certificates from any duly qualified body, will be granted certificates from the Board without examination, should the certificates presented by them be satisfactory to the Board.
By order of the Board,
JOHN JESSOP,
Superintendent of Education.

my18 URIAH NELSON.

Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, which charge, I may also say, was reasonable. My complaint was neuralgia. WILLIAM MCCORMICK.
Victoria, Aug 26th, 1871. je1

Dentistry.

C. FRANCIS BARNARD, MD.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.
We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.
Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.
The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.
OFFICE AND RESIDENCE—Douglas Street, between Dr. Powell's premises and Willson's Tea Store. Business hours from 8 a m till 5 p m.
Victoria, Nov 4, 1871. de5 d&w ls

Mills Bowden,

THE BRITISH COLONIST.

Thursday Morning, July 4, 1872.

Nanaimo Gaol.

Those only who have seen the structure dignified by the designation of Nanaimo Gaol can realize the fitness of the remarks of the Chief Justice, when he said that 'the man must be a fool who would remain in it.' The structure is of wood, about the size and style of an ordinary farmer's hen-house, and it is elevated on wooden stilts. Situate on the slope of the bank near the water's edge, it would be no difficult matter to ship it, prisoners and all, to 'foreign parts.' But there is no occasion to take the structure along, when to open it and let the inmates free would be such an easy task. To erect such a ridiculous structure in the name of a Gaol was only in keeping with the genius of a former dispensation under which the leading principle would seem to have been, 'Starve the people to fatten the officials.' As was pointed out in these columns at the time, Nanaimo was justly entitled to a very different public building,—one of stone, which, from the close proximity of the Newcastle Quarry, would not have cost a great deal more than wood. Twice have Grand Juries directed attention to the insecurity and unfitness of the structure for the purpose for which it was intended; and there is reason to believe that the Chief Justice endorsed and transmitted the remarks of the Grand Juries to the proper authorities. Why is it, then, we may be permitted to ask, that no steps have yet been taken with a view to rendering the so-called Gaol comparitively secure and habitable? The sum of one thousand dollars was placed at the disposal of the Executive for that purpose last session. One would have thought that a matter of such urgency would have received immediate attention. These remarks are suggested by the circumstance of a more than ordinarily tragic murder having recently been committed at Nanaimo and the perpetrator being confined in the aforesaid structure. Despite all the precautions taken by the local authorities, escape is regarded as being not only possible but probable. Should the prisoner escape and that terrible crime go unpunished, and all through the notorious insecurity of the prison, who shall bear the responsibility? Not the press; for we entered our protest at the time the folly was perpetrated; we have protested since, and we protest now. We would respectfully urge upon the Chief Commissioner the duty of having this matter attended to immediately. There is doubtless a heavy strain upon his department occasioned by the numerous public works going on in various localities; but this is one of a peculiarly urgent nature—one which cannot wait.

The Graving Dock.

Towards the close of last year an advertisement was issued, inviting tenders for the Graving Dock at Esquimalt. Those tendering were required to prepare their own plans and specifications, and send them in with the tenders. Under these circumstances, it was scarcely surprising that only one tender was sent in, and that it was altogether too high for acceptance. Although anxious to see the work proceeded with, the Legislature, by a very large majority, supported the Executive in declining to accept the tender; and a resolution was adopted, instructing the Executive to have the necessary borings made and plans and specifications prepared in order that persons desirous of competing for the work might have before them the necessary data upon which to base their estimates. The Executive issued the invitation for tenders before the month of April had expired; but the advertisement contains the following paragraph:—'Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions showing exact dimensions materials, and mode of construction of proposed dock.' Here, as it appears to us, the error of last year is repeated. The very object of the delay and of the resolution was to enable competitors for the work to tender upon plans and specifications prepared *for*, not *by*, them. What is the meaning of this clause, then? There is too much reason for believing that it is exerting a fatal influence by causing those who might otherwise compete to turn away; and, unless immediate steps are taken for carrying out the object of the resolution passed by the House, it is greatly to be feared that the Legislature will find itself in no more favorable position to deal with the matter when it meets again. We trust this subject will receive the serious attention of the Executive.

THE ONLY COMPLETE BOOK-BINDERY NORTH OF SAN FRANCISCO.—The undersigned is prepared to turn out a superior class of work. Magazines, Newspapers, etc., etc., bound with dispatch. The most difficult forms of Ruling done. Cheques or Receipt Books numbered and perforated. Charts or Maps mounted on linen, suitable for the pocket: and Drawing Paper mounted by the yard or in sections.—ROBT. T. WILLIAMS, at Messrs T. N. Hibben & Co.'s. *

HOLLAWAY'S PILLS AND OINTMENT.—Scurvy and diseases of the Skin—Fever, fretless sleep, foulstomach, tainted breath langour, depression of spirits, always attendent on the worst cases of cutaneous-eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion 25 cents per pot or box.

WE are surprised that A. McLean & Co. do not advertise, as their stock of Summer clothing, Hats, &c., &c., is the largest and best selected ever offered to the people of this province, and they received additions of the latest styles to their former stock ex Prince Alfred and Polly *

To the Electors of Victoria District
Including Victoria City, Victoria District, Esquimalt and Metchosin:

GENTLEMEN:—In a short time you will be called upon to elect two members to represent you in the House of Commons, and as many Electors have expressed to me a desire that I should offer myself as a candidate for that honorable position, I now solicit your suffrages, assuring you that, if elected, no effort on my part shall be spared to advance your interests at Ottawa, or to assist in legislating for the advancement of the whole Dominion. Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I should urge the establishing of a Quarantine Hospital at once; the opening of an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the dredging of Victoria Harbor. I should endeavor, if necessaay, to obtain an increased guarantee for the Dry Dock, and should point out the benefits and importance of completing the Railroad from the Pacific to Lake Superior (at least) in the shortest possible time From present information upon the subject it appears there is little prospect of both Houses being in session this year at the same time, but should it prove otherwise, and should I be elected to the Commons, I should feel in honor bound (although with great reluctance) to resign my present seat in the Local House, and enable another representative to take my place.
I remain respectfully your obd't servant,
je29 ROBERT BEAVEN.

A CARD.

A REPORT HAVING BEEN CIRCULated that if elected to the Commons I intend permanently leaving this Province, I wish distinctly to state that there is not the least truth in any such report, my intention being to remain a resident of this Province whether elected or otherwise.
ROBERT BEAVEN,
June 29th, 1872. je30 1wd&w

NOTICE.

25 and 27 Yates street.

THE BRITISH COLONIST.

Thursday Morning, July 4, 1872.

MR. NATHAN, M. P.

This gentleman will be a Candidate for re-election to the Commons for Victoria City.

City Council.

The Council met at 7:30 p. m. last evening. Members present: Coun. McMillan, in the Chair, and Couns. Gerow, Taylor, Mitchell.

Minutes of the previous meeting were read and adopted.

Communications were read from the Provincial Secretary with reference to the relief of a destitute British seaman in the city. Communication received and filed.

Also a second with reference to the definition of the boundaries of the streets, informing the Council that the Government had no power in the matter without Legislative authority.

Also, from the Manager of the Gas Co., requesting leave to excavate on Store street. Communication received and filed.

Also, from Mr Patterson, C E, with regard to the surveying of Cormorant and Farquhar streets, tendering to do the necessary work for $85.

Accounts from E Grancini, for nails, &c., $15 87, W C White, for carrage 75cts, T Craigie, thistles, $3; H F Heisterman $15; G Stelle, grading and gravelling Broughton street, $507.

All referred to Finance Com. for payment if found correct.

Tenders for the brick culverts were received from: Wm. Williams—Douglas street, $1,008; Government street, $757; Store street, $810.

Kinsman & Styles—Douglas street, $700; Government street, $595; Store street, $595.

Wm Smith & Co—$10 per running foot.

Humber & Good—Douglas street, $690; Government street, $700; Store street, $800.

J Bullen & Co.,—Douglas street, 1,080; Government street, $812; Store street, $820

After some discussion, Coun. Gerow moved and Coun. Gowen seconded, that the tender of Messrs Humber & Goode, for Douglas street, be accepted, and that those of Messrs Kinsman & Styles, for Government and Store streets, be accepted providing they are willing to wait till the Council is in a position to do the work.

Coun. Gowen reported that the new pound is ready and that the key of the old pound had been handed back to the owners.

With regard to the gravelling on Pandora street, no communication having been received from M. Wells, on motion tenders were ordered to be advertised for to finish the work.

The Council then adjourned.

LOWER FRASER.—In an affray which occurred at Hastings Mills, between whites and Indians, Mr Cadwallader got his arm severely cut while acting as peace-maker.... At Sumas and Chilliwhack crops look well and haying is fairly underweigh.....Work on Chadsey Bros.' new grist mill is progressing rapidly....The new boilers having been put into position, steam was got up on the Lillooet on Saturday last. Everything worked satisfactorily, and the steamer was pronounced ready for service.....Dominion Day was celebrated with much spirit at Burrard Inlet, Moodyville being headquarters....The grist mill at St. Mary's Mission is in good working order, capable of grinding three tons of wheat every ten hours....The people of Chilliwhack have petitioned for a postoffice and against a "whisky mill."....The ceremony of laying the foundation stone of the Mortuary Chapel at the Masonic Cemetery is to take place about the 16th inst.....The settlers at Matsqui sent a donation of $27 50 towards the funds of the Royal Columbian Hospital.

FROM THE INTERIOR.—Surveyor General Pearse returned yesterday from a professional visit to the interior of the Mainland, where he has been directing and inspecting the various public works. The road from Savona's Ferry is made as far as Kamloops and will be pushed on as far as Okanagon. The Alexandra suspension bridge is pronounced in a dangerous condition from some of the principal timbers being in an advanced state of decay. Directions have been given for single teams only and light loads passing over meanwhile. Extensive repairs will have to be made at a probable expenditure of six thousand dollars, which will necessitate the cessation of traffic over it probably for the space of six weeks. Crops in the interior are looking well and an abundant harvest is anticipated. The road from New Westminster to Yale is contructed as far as Langley, and steps will be immediately taken for constructing the road to Semihamoo.

BOARD OF TRUSTEES FOR VICTORIA SCHOOL DISTRICT.—Mr. McMillan in the Chair. Present:—Messrs. Gowen, Gerow, Mitchell and Taylor. Minutes of previous meeting read and adopted. A communication from the Provincial Secretary saying that the Government had granted the sum of $1,303 for repairs to the school houses. On motion the communication was received and ordered spread on the minutes, and the Secretary was ordered to notify Messrs. Muirhead & Bruce to proceed with the work after signing the contract and furnishing two sureties of $500 each for the due fulfilment of their contract.

BASE BALL.—A telegram was received from Mr. Sargent, of the North Pacific, to the effect that the Victorians were badly beaten; but as no telegrams from our specials were received it is supposed that the above is a hoax, and that the match was postponed till Friday. The Victoria nine will return on Monday.

FROM NANAIMO.—The Rev. Mr. Derrick arrived from Nanaimo last evening. The prisoner Bell is reported to be very quiet and well behaved, and attends with much earnestness and seeming appreciation the ministrations of his spiritual adviser (Rev. Mr. Derrick) who has visited him twice a day since his incarceration.

THE steamer Enterprise, Capt. Swanson, arrived from New Westminster at 4 o'clock yesterday afternoon, with the following passengers:—Mrs P L Anderson, Rev Russ, Rev Clarkson, Rev Crosby, B W Pearse, J D Evans, E Picht, J L Franklin, Messrs Arnaud, Moresby, Herring.

THE French Benevolent Society will give a pic-nic on the 20th inst., (*our* Dominion Day) particulars of which will be subsequently announced.

The Lane & Kurtz.

BARKERVILLE, June 20th.

C. C. LANE:—Drowned out last night with engine running at 58 revolutions. Shall commence placing extra pumps at once.

R. H. BROWN.

County Court.

San Chong vs Woodhams and wife for $5 50—Judgment in favor of plaintiff for the amount with costs.

The case of Wagner vs Lush was again heard, but not finished.

IN accordance with the request of the East Coast settlers, the steamer Maude will leave this port on Saturdays and returning on Tuesday mornings, leaving at 7 o'clock from both ports. She sail for Nanaimo this morning at 7 and return on Tuesday next, July 9th, making her first trip under the new arrangement.

FOURTH OF JULY.—This being the anniversary of the Declaration of Independence by the United States, the occasion will be properly and enthusiastically observed by Americans everywhere. Here there will be a very general closing of stores and hoisting of bunting.

SCOTTISH GATHERING.—The Scottish Gathering will take place at the Caledonian Grounds, Cook street. The committee are making great preparations, and there will be a large number of people present and happiness will be unbounded.

THE CABLE.—The steamer Etta White laid the telegraphic cable at 10½ o'clock or Tuesday night and returned to this port yesterday. An attempt to raise the old cable proved a failure, it being eaten and so utterly rotten that each time it was grappled it broke short off.

DR. LIVINGSTONE.—A very interesting account of the finding of Dr. Livingstone, by the New York *Herald* man, will be found in this issue; but the poor old man has lost himself again!

THE QUARANTINE.—Mr. Southgate and several other inmates of the Quarantine will be discharged to-day, and on Sunday the remaining occupants will be liberated.

ACCORDING to latest advices the bark Princess Royal was to leave London on the 1st of June.

AT SAN FRANCISCO.—Messrs Nathan and DeCosmos are reported to have arrived at San Francisco yesterday.

TELEGRAPH HOURS.—The telegraph office will be open to-day from 8 to 10 a. m. and from 4 to 6 p.m.

THE CALIFORNIA reached San Francisco on Monday night.

THE SALMON have commenced running in the Fraser.

THE CALIFORNIA should leave San Francisco for Victoria to-morrow.

THE Court of Assizes will sit to-morrow at the Court House, James Bay.

POLICE COURT.—A blank record.

The Regatta Funds.

EDITOR COLONIST:—I must apologise for encroaching on your space, but I should like to know if it is not usual that in all cases where subscriptions for charitable purposes or otherwise have been collected that an account of receipts and disbursements should be published. Not that I have any doubt of the integrity of the parties placed in trust; but when a large sum such as that subscribed for the regatta, which was so ably carried out, amounting to some $700, the public are only justified in asking for a statement of how the money was spent.

I remain, sir,

A SUBSCRIBER.

Interesting Geological Report.

We have been favored with a peep at Mr. James Richardson's able report of the geological characters of the Island, and have copied an extract which will be of interest to local readers:

Deposits of stratified clay, sand and gravel are very extensively spread over the rocks belonging to the coal series. With the exception of escarpments towards the base of this series, almost all the exposures of coal rocks were observed only where the drift had been swept away at the margin of the sea or in channels of streams. Sections of all the drift were scarce, and I have only a few examples from which to form an opinion of the general character of the superficial deposits. They consist generally of a greyish brown clay mixed with sand, sometimes becoming gravelly with well rounded pebbles derived from the crystalline rocks, from a quarter of an inch to an inch in diameter. In some places the clay is free from sand, and in others pure sand prevails, which is usually marked by false bedding.

The greatest thickness that came under my observation was in a cliff forming the coast part of the way between Comox harbor and Cape Lazo or Point Holmes. The estimated height was about 150 feet. The lower part is composed of good brick clay, with very little sand. Layers of sand gradually become more prevalent ascending, while toward the top the sand predominates and shows occasional round pebbles.

In Cormorant Bay, there is a cliff of a similar character, but its greatest height is not over 100 feet. To the east of Beacon Hill, which is on the coast just south of Victoria, a cliff extending a mile is composed of from fifty to eighty feet of clay with a small mixture of sand throughout, and from a similar looking clay, red bricks are made on the west side of the Saanich road, about half a mile from Victoria. The drift in general present horizontal layers, which in a multitude of places are worn into gentle inequalities, and throughout the country is covered with an unconformable mantle of black soil, consisting of from two to three feet of an earth derived apparently from the decomposition of vegetable matter, probably marine, seeing that it is followed by six inches or a foot of the same material holding sea shells, sometimes crowded together in great quantities which from the loss of the gelatine, crumble on being handled, and perfect specimens of which are therfore difficult to collect. The highest position in which the shell-bed was observed is to the east of the Saanich road about 5 miles from Victoria. It occurred in a slight depression at a height of about 300 feet above the sea, but it is not improbable, that it may be met with at still greater heights in other places. The species of shells appear to be the same as those that still inhabit the coast. Among them are forms identical with the following living species brought with others from the coast, and kindly determined for me by Mr. Whiteare, Secretary of the Natural History Society:—Mytillus Californianus, Cardium Corbis, Tapes Staminea, Saxidomus Opaca, Macoma Inconspicua, Luratia Lavieu, Purpura Crispata.

In all the area examined by me on and about Vancouver Island there was a singular absence of large erratic blocks. Ice grooves were remarked on the beach below Beacon Hill near Victoria running S 27 W.

The vegetable soil which has been mentioned seems to be of a very productive character, and whether in the forest, the field or the garden, appears, combined with the favorable climate, to yield large returns. In the Comox district, about 140 miles from Victoria, as already stated, the soil is spread over a very considerable area of prairie country, commonly designated an opening, extending from the Coast up the different branches of the Courtenay River for seven or eight miles. The surface of this district, which is naturally free from timber, with the exception of single trees and stumps, chiefly of oaks (Quercus Garryana) and strips of alders (Alnus Oregona) in the bottoms, may be some twelve square miles, the scenery of which is picturesque and parklike. Its margin is very irregular in shape and it is surrounded by a growth of very heavy timber, among which are the Douglas pine (Abies Douglasi) often attaining ten feet in diameter and 200 feet in height, half of which is free from branches and the cedar (Thuja gigantea) often equally large. The open country in its natural state is mostly covered with a growth of ferns, which sometimes attain a height of ten feet, with stems three-quarters of an inch in diameter and root-descending to a depth of three feet. These roots the native Indians prepare in some peculiar way for winter food and excavate deep trenches to obtain them. The farmers are under the necessity of grubbing up the fern roots before the ground is ready for use, and they are often voluntarily assisted by their pigs in this operation, these animals, it is said, relishing the fern root as food. I was informed by Mr John Robb and Mr John McFarlan, two partnership settlers of the district, that the average yield of land after it is cleared and thoroughly under cultivation is of wheat, from 30 to 35 bushels per acre; barley, 40 to 45 bushels; oats, 50 to 60; peas, 40 to 45; potatoes, 150 to 200; turnips, 20 to 25 tons. Some of the turnips exhibited by Mr Robb at the agricultural show are said to have been remarkably heavy, but those of the Swedish and yellow varieties, seen by me, I consider rather small. The season, however, was said to be an unusually dry one. The yield of Timothy hay is said to be about 2 tons per acre. Clover thrives well and rye grass is valued for its after crop.

The yield of butter per cow after calf feeding is about 150 lbs annually, the ordinary selling price being 40 cents per pound. Cattle generally require to be home fed from the beginning of December to the middle of April. Snow seldom lies long. Heavy falls sometimes occur but generally disappear in a few days. Once or twice snow has remained on the ground for two months. Apples, pears, plums, cherries, white and red raspberries, red, white and black currants, and most kinds of fruit thrive remarkably well. Some apples, of which I obtained samples, measured thirteen inches in circumference and weighed nineteen ounces. They were high flavored and well adapted for eating and cooking. Of the pears many measured eleven inches in circumference and were high flavored and juicy.

At Gabriola prairie land, or openings, such as those already described at Comox, occur. More of them are met with on Saltspring Island, but in neither place of the same extent as at Comox. Mr Griffith, one of the settlers at Saltspring, informed me that the fall wheat thrives well there and yields from 35 to 40 bushels per acre. Of other grains the yield seems to be about the same as at Comox. In Mr Griffiths' garden there was a large plot of common winter cabbage, the solid heads of most of which measured from three to four feet in circumference. Red cabbage and cauliflowers were equally large and sound. Carrots and parsnips were large as well as onions, and there was abundance of tomatoes and of several varieties of gooseberries, which did not seem to thrive so well at Comox. Mr Griffith informs me that at Saltspring the bushes give in quantity and quality a crop equal with the best English. The crops of all the varieties of currants and raspberries in quantity and quality vied with those of Comox.

Mr Griffith's orchard occupies about two acres and has been set out only three or four years. I saw different varieties of apple, pear, peach, plum and cherry trees, and the proprietor informed me that all kinds bore fruit last year. The apples are excellent in quality, and the pears though not large were equal in flavor and juicyness to any I have ever tasted.

Mr Griffith has about 300 barn door fowls, which are fed on the grain of the farm and enable him to supply a great abundance of eggs to the Victoria and Nanaimo markets, where they sell for 25 to 40 cents per dozen.

At Fulford Harbor Mr Theodore Kings showed me a pumpkin, of the ——— variety, which measured 32 inches in length, with a diameter of 16 inches at the small end and 24 inches at the other; and he informed me that larger ones had been used before my arrival. The settlements of North and South Saanich as well as of other districts near and around Victoria show a good deal of prarie land, "oak openings," as they are called in that part of the country, from the greater abundance of trees of this species than elsewhere. In these oak openings many beautiful farms are met with, the soil and aspect of them resembling those of Comox. In addition to the grain, fruit and vegetables enumerated elsewhere the hop vine has been introduced in North Saanich, and in the neighborhood of Victoria. In the former place Mr Isaac Cloake and Mr Henry Wain, with some others, have each a hop orchard, as it is there termed, of several acres in extent. Mr Cloake, who spent nine years amongst the hop fields of Kent, England, informs me that his hops are quite equal, if not superior to the English, which, according to him, was tantamount to saying that they were the best on the face of the earth; and Mr Wain, who likewise had practical experience, stated that in regard to aroma they were equal to the best he knew. They are of the variety known as the grape hop. It was introduced from California and is said to have greatly improved in British Columbia.

The yield of hops is here from 1000 lbs to 1700 lbs to the acre and it brings in the Victoria market from 22 to 60 cents per lb. When railway communication is established, the article may become one of trade between the two provinces, for if I am rightly informed, the hops imported from England are superior to any raised in Canada.

Other settlements of a similar character to those described are established between Saanich and Nanaimo, which I had no opportunity of visiting. Near and around settlements possessing farms such as mentioned, in many places rocky hills rise up to heights of 1000, 2000 or even 3000 feet and more, the surface of which is in some parts craggy, but in others they present patches, with a thin soil, covered with a firm short bunch grass on which sheep and cattle thrive well, for such of them as I saw there appeared to be in good condition. The temperature is cooler in such places than in the lower and more level country and during the heats of summer they afford excellent pasturage, which will much assist the industry of agriculturists. Along the coasts and in the interior of Vancouver Island as well as on those of the archipelago surrounding it, many localities for farms similar to those which have been here described will be discovered and hereafter become the homes of thousands of a hardy and industrious people.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits.

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Africa.

NEW YORK, July 2—The Herald's London special dispatch says letters have been received from Stanley, the Livingstone explorer, of which the following is a summary: From Uregamytubie, where Stanley arrived in Sept last, I intend advancing on Ajuji, but Neambo, King of Ajuji, decided that no caravan should pass Ajuji unless over his body. The Arabs declared war and anticipated a victory. I gave them assistance the first day, and in concert with them attacked two villages, captured, killed and drove away the inhabitants. The third day the Arabs were attacked and routed, with terrible slaughter. On the fourth day my own men after considerable difficulty reached the suburbs of Ajuji. I entered firing guns and carrying the American flag. The astonished natives flocked around in crowds with deafening shouts. I noticed in the midst of a group of Arabs, and strangely contrasting with their sunburnt faces, a pale and gray bearded man, wearing a naval cap with gold bands and a red woolen shirt. Preserving a demeanor of calmness before the Arabs, I said it was Dr Livingstone I presume. He smilingly answered yes. He informed me that he started in March, 1868 with 12 spears time men and 7 liberated slaves, and traveled up the banks of the Resuna, and his men got frightened and deserted and reported Livingstone dead as an excuse for the desertion. He crossed the Chambrei and found it to be a wholly separate river, and he found it was called Farthera Luadada. He explored the Mill Mins and found that the Leambeldre is the source of the Nile, and that the length of the Nile is about 2600 miles. It is not supplied by Luganies, the radius. When within 180 miles of the explored ground he was obliged to return to Ajuji destitute. Here we met and we then left on the 16th of October and arrived at Nuguugambe at the end of December. We spent 28 days in exploring the district together. Livingstone then left Nuguugambe to explore the mouth of the Jam Jamyike Lake and the remaining 180 mens. This will occupy the next two years.

Europe.

LONDON, July 2—Russell met his constituents at Southampton last night, he spoke warmly of the Americans whom he said were desirous of preserving friendly relations with England. He thought an interchange of views between the two countries advisable He cared not whether England was required by the arbitrators at Geneva to pay 20 or 40 millions more or less, but it was necessary that both nations should see that business had been done and their disputes honorably settled.

West Indies.

HAVANA, July 9—The steamer Fannie landed guns and ammunition at Serrio Diara. She got aground and took fire and is now burning The expedition consisted of 56 men under Peralt. They were attacked by Spaniards who killed Peralt, took five prisoners and seized the entire cargo.

Eastern States.

WASHINGTON, July 2—Dr Minor has been appointed surgeon of Marine Hospital at Port Townsend, W. T.

LONG BRANCH, July 2—The attendance at the races was immense. The great event was the Monmouth Cup race, two and a half miles, for which there were 12 entries for a purse of $15,000. Only Longfellow and Henry Bassett started amidst great excitement For a mile and a half the horses were about even, but Bassett was doing his best and Longfellow was under pull As the horses passed the grand stand a second time Longfellow's rider let him go, and although Bassett's rider plied whip and spur Longfellow won the race in 3 32 minutes and nearly 20 lengths. The betting was very heavy.

NEW YORK, July 2—20 fatal cases of sunstroke at Boston yesterday and 40 here. Thermometer 102 degrees in the shade.

Our London Letter.

[FROM OUR OWN CORRESPONDENT.]

LONDON, 25th May, 1872.

The well-remembered form of your Ex-Mayor Franklin but recently darkened my door. I frequently see him and his brothers. Selim looks not a day older than when he last addressed the free and independent electors of Victoria.

The very first day that I visited the International Exhibition I met Mr D C Maunsell, formerly Private Secretary to Governor Seymour. He now holds office under General Scott, the Secretary to Her Majesty's Commissioners for the Annual Exhibitions.

An advertisement is going the rounds of the London papers for agriculturalists and others to go to Queen Charlotte Islands. A friend of mine lately answered it and has brought me the reply which he obtained and asked my advice upon it; I have recommended him to pay his own expenses out to Vancouver Island rather than to pay £50 to Mr O Smith, 3 Barge Yard Chambers, Bucklersbury, who does no refer to a single merchant who knows or is known in your Province. He asks £50; says that the first vessel will sail about the 15th June; the money includes passage out and six months provisions and he add that there is a fortune to be made in agriculture, furs, whale fishing and mining. If there is really any bona fide opening for farmers with a little money, or for laborers, why do not some of the well-known agents in your city send advertisements to the London papers, referring to a good London house to assist parties willing to emigrate with information. There are hundreds ready to go if they are really wanted—particularly to such a good climate as yours. I have advised my friends to look through the files of your paper before coming to any decision.

INTERNATIONAL EXHIBITIONS.

I regret to find that you are quite unrepresented at the International Exhibition, when with very little trouble to yourselves you might make as good a show as Queensland. Gold, coal, wood, which takes an excellent polish, cottons and cereals, are the principal article exhibited in the Queensland Annex; and yet hung round as the walls are with maps, views of the country and mining scenes, it is upon the whole one of the most attractive galleries next to the Indian—especially to those who have been in the Colonies.

I am often asked about the Steam Company which a short time ago was mentioned in the city as likely to be vere soon in operation between Hongkong and Victoria, B.C. What has become of it? Do you hear anything at your end of the probable arrival of steamers for this new route?

I have been promised news for you of a new mining company for your Province, but as I have not yet positive information, I can say nothing except that I believe it is progressing.

It is rumored that your last Governor, who is gazetted Lieutenant Governor of Natal, goes out to that Colony with instructions to carry out a system of confederation in South Africa, his success in that direction having been so great in British Columbia. Mr Musgrave is considered the best man that the Government could select to carry out their schemes for Colonial Confederation.

Last evening being at a concert at the Albert Hall, I saw in the Arena Stalls, amongst the kid glove and full dress people, a gentleman whose face seemed familiar to me. He had the appearance of a comfortable parson with no small living, stout, jovial and priestly. He looked, but with a certain twinkle of joviality about the eyes which strongly betokens a liking for the good things of this life, and my satisfaction was great when he beckoned me across the platform into the recess and handed me the familar card of Burns & Edwards of your city, with the London address of himself,—D. Edwards. He tells me that he returns home soon, and I think it is not unlikely that you will have a few more returning who are now lost to your sight though "to your memory dear."

I have just witnessed the start for the Derby from Piccadilly and Charing Cross, and a fine sight it was. The Four in Hand Club have lately been coming out very strong, and of course to-day there was an additional muster. More teams have started to-day than have been seen on the road for years past, and as the day is warm, ladies are dressed in the lightest and gayest costumes.

If I had thought that an account of Derby Day would have been of real interest to your readers I would have sent you one, but those published in our daily papers — which will reach you as soon as this—are so good that it would be a waste of time for me to give you my experiences of the great day.

I had a call a few days ago from an artist formerly of Victoria who amused me with an account of selling one of his first sketches of mining life on the Fraser to Governor Douglas in 1859. He, (Mr Burgess) has a good painting in the Exhibition this year.

What the Weak Need.

Why do the debilitated and feeble dread the summer It is because heat is an exhausting element, and they are not in a condition to bear the new drain upon their languid systems, which they think must necessarily commence with the warm weather. But can not this evil be obviated? Most indubitably it can. What these weaklings need—in fact, what nine-tenths of us need at this season—is an accession of physical vigor, and this desideratum can be secured, with absolute certainty, by a course of the mightiest, yet mildest of all vegetable tonics, Hostetter's Stomach Bitters.

Thousands of men of business, mechanics and professional men, break down partially or wholly, under their summer labors, simply because they have neglected to reinforce the powers of nature in this way. To persons who use the celebrated invigorant and corrective regularly in hot weather, the exhaustion which excessive heat is apt to produce under other circumstances is unknown. They are not troubled with nausea, their appetites are good their digestion excellent and their habit of body all that can be desired. This for twenty years been the uniform testimony of all who have taken the Bitters as a summer tonic and alterative. Its efficacy is due to the care and scrupulous fidelity to the teachings of experimental science, with which its medicinal ingredients have been culled from the vegetable kingdom the admirable proportions in which they are combined and the unequalled purity of its stimulative basis.

BRITISH COLUMBIA

ESQUIMALT GRAVING DOCK.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock at the Naval Station Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, which Section is in the following words:

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work at the rate of five per cent per annum, on such sums not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonry, and of not less than the following dimensions:—

Length on floor 370 feet,
Do over all 400 feet,
Width between copings 90 feet,
Do on floor ..... 45 feet,
Do of entrance..... 63 feet.

To afford a depth of water on the sill of not less than 20½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to site, borings, &c., may be obtained from T. A. BULKLEY, ESQ., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions, showing exact dimensions, materials and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis such supplemental guarantee by the Provincial Government, or upon such other financial inducements as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each Tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, Her heirs and successors, conditioned upon the due fulfilment of the Tender which it accompanies provided it be accepted within three months from the said 15th of November.

By Command,

GEO. A. WALKEM,
Chief Commissioner of Lands & Works

Lands & Works Office,
Victoria, April 27th, 1872. ap28
